1. Preliminary Clause

This Insurance is subject to Law 50/80, of 8 October, on Insurance Contracts (B.O.E. of 17 1980), Law 20/2015, of 14 July, on the regulation, supervision and solvency of insurance and reinsurance companies, to the modifications and adaptations thereof that may occur and to its regulatory provisions.

In accordance with the legal mandate, the Conditions of the insurance contract have been drafted with a clear and precise form, so that those who have an interest in the contract can know its exact scope.

- 1.1. The information provided by the policyholder in the Insurance Application and any other documentation and/or information attached thereto, constitutes the basis on which these terms and conditions have been established, including the calculation of their price, and the essential reason why the Insurer enters into this contract. - 1.2. The policyholder is obliged to inform the Insurer of the nature and circumstances of the risk and to notify any circumstance known to the Insurer or to the Insured that may influence its assessment. This obligation is prior to the conclusion of the contract, so the contracting party must declare to the Insurer, in accordance with the questionnaire to which the latter submits, all the circumstances that may influence the risk assessment.**
- 1.3. This Insurance will be formalized when the contract or the provisional coverage document is duly signed by the contracting parties and will take effect on the date and time specified in the Specific Conditions.**
- 1.4. If the content of the contract differs from the Insurance proposal or the agreed clauses, the contracting party may claim from the Insurer, within a period of one month from the delivery of the contract, to correct the existing discrepancy. E) ACCIDENTS

19. DEATH AND DISABILITY DUE TO ACCIDENT

If, as a result of an **ACCIDENT**, as defined in this Contract, **suffered during a trip**, the **DEATH** of the Insured occurs, **or** the Insured is left with a degree of **ABSOLUTE DISABILITY**, the Insurer will proceed to indemnify the Insured, the beneficiaries or the legal heirs of the latter, up to **the limit established in the Particular Conditions.**

For the purposes of this contract, Absolute Permanent Disability is understood to be the injuries indicated below:

- c) **The determination of the degree of disability resulting from the accident will be made in accordance with Article 104 of Law 50/1980. If the Insured does not accept the Entity's proposal**

Insurer with regard to the degree of disability, the parties shall submit to the decision of Medical Experts in accordance with Articles 38 and 39 of the aforementioned Law.

Without prejudice to what may be established in the Specific Conditions, the benefits provided for the risks of Death and Absolute Permanent Disability are not cumulative with each other. Therefore, the payment of a benefit will automatically extinguish the coverage of the rest of the Coverage.

However, if after the payment of an indemnity for permanent disability, the death of the Insured occurs, as a result of the same event, the Insurer will pay the difference between the amount paid for disability and the sum insured in the event of death, if this sum is higher.

The maximum limit per accumulation from the same event for this Coverage will be established in the Specific Conditions.

PARTIAL PERMANENT DISABILITY: If the accident results in a Partial Permanent Disability of the Insured, the amount of compensation to be paid by the Insurer will be the result of applying to the insured sum stipulated for the corresponding Permanent Disability, the percentages detailed below:

| Type of injury | Law | Left |
|---|------|-------|
| Incurable mental insanity, which makes it impossible to carry out any work activity | | 100 % |

- b) The sum of the percentages of compensation for several types of Partial Disability in the same member or body may not exceed the percentage established for the case of total loss of the same.
- c) If the victim is left-handed, which must be suitably proved, the percentages provided for the right upper limb will be applied to the left upper limb and vice versa.
- d) If a limb or body affected by an accident had amputations or functional limitations prior to the accident, the percentage of compensation applicable shall be the difference between that of the pre-existing disability and that resulting after the accident.
- e) The determination of the degree of disability resulting from the accident will be made in accordance with Article 104 of Law 50/1980. If the Insured does not accept the proposal of the Insurance Company regarding the degree of disability, the parties will submit to the decision of Medical Experts in accordance with Articles 38 and 39 of the aforementioned Law.

The Insurance Company will pay the amount of the first prosthesis performed on the Insured to correct the residual injuries caused by an accident guaranteed in the insurance. The scope of said prosthesis will not exceed 10 per cent of the compensable sum in the case of Permanent Disability, and in no case will it exceed the amount of SIX HUNDRED EUROS.

INDEMNITY CLAUSE BY THE INSURANCE COMPENSATION CONSORTIUM FOR LOSSES ARISING FROM EXTRAORDINARY EVENTS IN PERSONAL INSURANCE

In accordance with the provisions of the revised text of the Legal Statute of the Consorcio de Compensación de Seguros, approved by Royal Legislative Decree 7/2004, of 29 October, the Contracting Party of an insurance contract that must mandatorily incorporate a surcharge in favour of the aforementioned public business entity has the power to agree on the coverage of extraordinary risks with any insurance company that meets the conditions required by current legislation.

Compensation arising from events caused by extraordinary events occurring in Spain or abroad, when the Insured has his/her habitual residence in Spain, will be paid by the Consorcio de Compensación de Seguros when the policyholder has paid the corresponding surcharges in his/her favour and any of the following situations occur:

- a) That the extraordinary risk covered by the Consorcio de Compensación de Seguros is not covered by the insurance contract contracted with the insurance company.
- b) That, even if it is covered by said insurance contract, the obligations of the insurance company could not be fulfilled because it had been judicially declared bankrupt or because it was subject to a liquidation procedure intervened or assumed by the Consorcio de Compensación de Seguros.

The Consorcio de Compensación de Seguros will adjust its actions to the provisions of the aforementioned Legal Statute, Law 50/1980, of 8 October, on Insurance Contracts, the Regulations on Extraordinary Risk Insurance, approved by Royal Decree 300/2004, of 20 February, and the complementary provisions.

SUMMARY OF LEGAL REGULATIONS

In the event of events of a political or social nature, as well as in the event of damage caused by acts or actions of the Armed Forces or the Security Forces or Corps in peacetime, the Consorcio de Compensación de Seguros may obtain information

from the competent courts and administrative bodies on the events that have occurred.

2. Excluded risks:

- d) Those derived from nuclear energy, without prejudice to the provisions of Law 12/2011, of 27 May, on civil liability for nuclear damage or damage caused by radioactive materials.
- e) Those produced by natural phenomena other than those indicated in section 1.a) above and, in particular, those produced by the rise of the water table, movement of slopes, landslides or settlement of land, rockfalls and similar phenomena, unless these were manifestly caused by the action of rainwater which, in turn, it would have caused an extraordinary flood situation in the area and occurred simultaneously with said flooding.
- f) Those caused by tumultuous actions produced in the course of meetings and demonstrations carried out in accordance with the provisions of Organic Law 9/1983, of 15 July, regulating the right of assembly, as well as during the course of legal strikes, unless the aforementioned actions could be classified as extraordinary events of those indicated in section 1.b) above.
- g) Those caused by bad faith on the part of the Insured.

3. Extension of coverage.

- (j) The coverage of extraordinary risks will reach the same persons and the same sums insured as have been established in the insurance contracts for the purposes of covering ordinary risks.
- (k) In life insurance contracts that, in accordance with the provisions of the contract, and in accordance with the regulations governing private insurance, generate a mathematical provision, the coverage of the Insurance Compensation Consortium will refer to the capital at risk for each insured, i.e. the difference between the sum insured and the mathematical provision that the insurance company that issued it must have constituted. The amount corresponding to the mathematical provision will be paid by the aforementioned insurance company.

COMMUNICATION OF DAMAGES TO THE INSURANCE COMPENSATION CONSORTIUM

1. The application for compensation for damage covered by the Consorcio de Compensación de Seguros shall be made by means of communication to the Consorcio de Compensación de Seguros by the policyholder, the insured or the beneficiary of the policy, or by the person acting on behalf of the above, or by the insurance company or the insurance intermediary with whose intervention the insurance was arranged.

The Insurer, by receiving the corresponding additional amount, may consider some of the excluded risks described as covered, provided that this is expressly stated in the Particular/Special Conditions.

10. Individual certificates and insurance documentation

The Insurer will provide the policyholder with an individual insurance certificate for each Insured Party, which will include an extract of the General, Particular and Special Conditions, where applicable, and instructions for the use

of the services and coverage offered through the insured coverage, as well as the Pre-Contracting Information Note and the Information Document on Insurance Products.

The policyholder expressly assumes the duty to deliver the Certificate to the Insured, as well as the information on the contractual conditions and other legally required circumstances.

In the **group insurance modality**, the policyholder will indicate to the Insurer the composition of the Insured Group and will also be **obliged to notify it of any modifications that occur** in said group and which may consist of:

The effective date of each registration will take place from the moment it is communicated to the Insurer and the corresponding price is paid to it.

- **CANCELLATIONS**: They will take place due to the departure of a person from the Insured group and will take effect from the moment such circumstance is notified to the Insurer, or they reach the age of exit from the insurance.

12. Coverage limits and currency

The **maximum limits** of the coverage of this Insurance will be those that appear in the Specific Conditions. For those guarantees in which there is no quantitative limit and are indicated as included in these Particular Conditions, it will be understood that the maximum limit of the same will be the **effective cost of the provision of the service** to be carried out by the Insurer. In any case, **all limits in this contract are per covered event**.

Limit per covered event: The maximum limit of compensation payable by the Insurer for each covered event, for all insured persons in all its Insurances, even if, as a result of the same event, different coverages are affected and regardless of the number of Insured Persons affected.

The limit will be that indicated in the Particular Conditions.

IN INDIVIDUAL INSURANCE

In the event of a "PUBLIC HEALTH EMERGENCY OF INTERNATIONAL CONCERN" **the maximum amount to be paid will be €3,000,000** for the total coverage that may correspond.

In the event of an ACCIDENT, unless otherwise indicated in the Particular Conditions, **the maximum amount to be paid will be €600,000** for the total coverage that may correspond.

IN GROUP INSURANCE

Maximum compensation:

In the event of a "PUBLIC HEALTH EMERGENCY OF INTERNATIONAL CONCERN" **the maximum amount to be paid will be €3,000,000** for the total coverage that may correspond, regardless of the number of insured persons affected. For these purposes, all cases occurring during the 30 days following the declaration of quarantine will be considered the same event with coverage.

In the event of an ACCIDENT, unless otherwise indicated in the Particular Conditions, **the maximum amount to be paid will be €600,000** for the total coverage that may correspond, regardless of the number of insured persons affected.

A limit of €600,000 (Six hundred thousand Euros) per insurance contract and year is established for Private Civil

Liability coverage.

The currency applicable to this Insurance is the Euro, so the limits of the coverage will be expressed in this currency; regardless of the fact that for those benefits that must be paid or guaranteed by the Insurer in another currency, **the equivalent value in Euros of the same will be applicable on the date of occurrence of the event with coverage.**

13. How to Apply for Coverage

In the event of an event that may be covered by any of the Insurance's coverages, it is **an essential requirement that the Insured, their relatives, companions or a person they trust immediately contact the Insurer**, by calling the Assistance Centre, telegram, fax or e-mail to the numbers or addresses indicated in the Specific Conditions.

In the event of **force majeure that prevents** this notice from being made, it must be done as soon as the circumstances that have prevented the communication cease.

Once the contact has been established, the Insured, or in its absence the communicator, will indicate the number of the Insurance contract, the place where the Insured is located and a contact telephone number or email address, informing about the details of the facts and describing the assistance requested. The Insurer shall provide a file number and shall immediately put into operation the mechanisms available to it in order to provide the required service.

The Insurer is not responsible for delays or non-compliance due to force majeure or the special administrative or political characteristics of a given country. In any case, if **direct intervention by the Insurer is not possible, the Insured will be reimbursed on their return** to Spain, or if necessary, as soon as they are in a country where the above circumstance does not occur, for the expenses covered by the contract that they have incurred and are accredited by presenting the corresponding supporting documents.

Medical and medical transport services must be provided with the prior agreement of the doctor treating the Insured with the Insurer's medical team.

For coverage of **incidents in travel and flights**, the Insured must submit a written claim to the Carrier, and will assign to the Insurer its right to receive the compensation to be paid by the Carrier before receiving the compensation that corresponds to it for the aforementioned coverage.

The Insured shall not be entitled to receive any compensation when he deliberately uses incorrect documents or fraudulent means, submits event declarations with incomplete, inaccurate, exaggerated or fraudulent coverage, conceals the causes or amplifies the consequences.

In accordance with the provisions of Article 16 of the Insurance Contract Act (Law 50/1980), the Insurance Contractor or the Insured must also provide the Insurer with all kinds of information on the circumstances and consequences of the event. To this end, the Insurance Contracting Party or Insured Party will provide all the documents required by the Insurer.

14. Expense reimbursement

The Insurer will reimburse the expenses incurred by the Insured in order to receive assistance provided for in the contract only when previously informed of this, and **provided that the Insured provides the original documentation proving that the payment has been made.**

In no case will the provision of service be replaced by compensation, unless expressly agreed.

15. Existence of other insurance

When there are other Insurances with other Insurers that guarantee the same coverage for the same period of time, the policyholder or the Insured must notify the Insurer of the other existing Insurances. If this communication is not made due to fraud and the event with coverage occurs, the Insurer is not obliged to pay compensation.

Once the event with coverage has occurred, the Policyholder or the Insured must notify it, in accordance with the provisions of the Article corresponding to the Insurer, indicating the name of the other Insurers, which will contribute proportionally to the payment of the corresponding services.

Likewise, the indemnities to be paid by the Insurer will constitute a complement to the reimbursements that the Insured receives from the Social Security System or any other protection entity, including mutual insurance companies, for the same medical expenses.

In no case may the insurance suppose that the Insured receives more than what corresponds to him or that he obtains, in total, a value greater than his actual expenses.

16. Effect of non-payment of insurance price

If, due to the fault of the Contracting Party or the Insured, as the case may be, the first receipt of the Insurance has not been paid by the deadline for payment, or has not been paid in full if it is a single payment, the Insurer is entitled to terminate the contract or to demand payment through legal channels.

Unless otherwise agreed in the Specific Conditions, if that first payment has not been made before a covered event occurs, the Insurer will be released from its obligation.

In the event of non-payment of one of the following bills, the Insurer's coverage is suspended one month after the deadline for payment. If the Insurer does not claim payment within six months of the deadline for payment, the Insurance will be definitively extinguished.

In any case, the Insurer, when the contract is suspended, may only demand payment corresponding to the current period.

If the Insurance has not been terminated or terminated in accordance with the preceding paragraphs, the coverage takes effect again twenty-four hours on the day on which the contracting party or the Insured, as the case may be, makes the payment.

17. Principle of good faith

The Law provides for various situations that, when they occur, go against the interest of the Insured himself, since they are sanctioned with the nullity or ineffectiveness of the contract, or with consequences such as its challenge, exemption **from the obligation to indemnify and even the claim for damages by the Insurer.**

In general, such situations occur when the policyholder, the Insured or the Beneficiary acts with intent or bad faith or with gross negligence; when the Insurance Contractor makes incorrect declarations; when data is hidden; when there is no cooperation in the rescue tasks and, in short, when the principle of good faith that underpins the insurance contract is not respected.

Fraud, deliberate misrepresentation or concealment of information in relation to a covered event will be grounds for cancellation of this Insurance. In such a case, the Policyholder or the Insured Person shall lose all rights to receive any compensation to which they may be entitled and shall return any compensation already paid by the Insurer. In this case, the Insurer will not refund the price of the Insurance.

18. Exemption from liability

It is expressly stated that

IRIS GLOBAL Soluciones de Protección Seguros y Reaseguros S.A.U. is not liable, subsidiarily or complementarily, for claims for delay and/or non-compliance due to force majeure, or directly or indirectly caused by the political-administrative circumstances of a certain country or geographical area.

Likewise, the Insurer declines any liability arising from the information, advertising or propaganda made by the contracting party about this Insurance without prior written authorisation.

19. Surrogacy

The Insurer, once the compensation has been paid, may exercise the rights and actions that may correspond to the Insured against persons responsible for the event with coverage, up to the total amount that has been compensated. The Insured is obliged to cooperate with the Insurer in the exercise of this claim.

20. Acceptance

The Contracting Party of this Insurance declares that he/she is aware of and receives these General Terms and Conditions hereby. Likewise, it declares that it has been informed and expressly accepts all the clauses delimiting the coverage contained therein.

The contracting party undertakes to inform the Insured of the coverage of the Insurance, as well as of the applicable legislation, address of the Insurer, and instances of claim against it.

21. Risk modification

19.1. The Contracting Party of the Insurance or the Insured shall, during the course of the Contract, **communicate to the Insurer as soon as possible, all circumstances that aggravate the risk** and are of such a nature that if they had been known to the Insurer at the time of signing the contract, it would either not have entered into it or would have entered it under more burdensome conditions.

The Insurer may propose a modification of the conditions of the contract within **two months**, counting from the day on which the aggravation has been declared. In such a case, the Employer has **fifteen days** from the receipt of this proposal to accept or reject it. In the event of rejection or silence on the part of the Insurance Contracting Party, the Insurer may, after this period, terminate said contract after warning the former, giving him a new period of **fifteen days** to reply, after which, and within the following **eight days**, he will notify the Insurance Contracting Party of the definitive termination.

The Insurer may also terminate the contract by notifying the Insured in writing within one month, from the day on which it becomes aware of the aggravation of the risk. Such termination must be announced fifteen days in advance of its taking effect.

If a covered event occurs without a declaration of aggravation of the risk having been made, the Insurer is released from its benefit if the Policyholder or the Insured have acted in bad faith.

Otherwise, the Insurer's benefit will be reduced in proportion to the difference between the agreed price and the one that would have been applied if the true entity of the risk had been known.

19.2. During the course of the contract, the Insurance Contractor or the Insured may inform the Insurer of all

circumstances that reduce the risk and are of such a nature that if they had been known to the Insurer at the time of signing the contract, it would have been concluded under more favourable conditions.

In such a case, at the end of the current period covered by the price of the Insurance, the Insurer must reduce the amount of the future price by the corresponding amount, otherwise the Contracting Party of the Insurance shall be entitled to the termination of the contract and to the refund of the difference between the amount paid and the amount that would have been payable. from the moment of the notification of the reduction of the risk.

22. Conflicts between parties

For the resolution of any dispute arising in relation to the execution of this Agreement, the Insured may choose to make the corresponding claim to the Insurer, request the administrative protection of the Directorate General of Insurance and Pension Funds, or go to the instance that it deems most convenient for the defence of its interests.

In any case, this insurance contract is subject to Spanish jurisdiction, and within it, the competent judge for the knowledge of actions arising from the insurance contract will be the Insured's domicile in accordance with art. 24 of Law 50/1980 on Insurance Contracts, for which purpose the latter will designate a domicile in Spain, in case yours is abroad.

23. Contract disputes

This insurance contract is subject to Spanish jurisdiction, and within it, the competent Judge for the knowledge of the actions arising from the insurance contract will be the Insured's domicile in accordance with art. 24 of the Insurance Contract Law, for which purpose the Insured will designate a domicile in Spain, in case yours is abroad.
